No comparable sales from last week for a market comparison. Several reports of empty pens across the state has helped keep demand rather good for direct and auction cattle this summer. This week some feedlots saw their ink turn a tick black as they sold show-list at 124.00 live and 195.00 dressed. Conversations of some pens making a little money, not much just a little is better than continuously running at a negative or in the red. Not a lot of directs this week but more than recent weeks. If there isn't a good general rain across the two-state reporting region yearling feeders will be sold months earlier and pounds lighter than most grass time projections. Some contacts have already been told cattle will be coming off of summer grass if rain doesn't come soon. Some of the steers lots had a 25 lbs weight stop. Supply included: 100% Feeder Cattle (100% Steers). Feeder cattle supply over 600 lbs was 100%. Unless otherwise noted, Feeder Cattle prices FOB based on net weights after a 2-3% shrink or equivalent, with a 8 cent slide > 600 lbs. Livestock reported this week originated from MO, NE.
